Department of Marine Resources

May 2015

This packet is designed to explain how new zone entrants were determined for 2015 for each zone. If you have any questions, contact the License Eligibility Specialist at the telephone number or e-mail shown on the cover.

What is the Statutory and Regulatory Background for Lobster Zone Exit Ratio Calculation?

Rules for Limited Entry Zones – Title 12 MRSA §6448 (2)(C)

C. In accordance with subsection 7-A, the commissioner shall adopt rules that establish an exit ratio between either:

(1) The number of trap tags retired by individuals who declared that zone as their declared lobster zone in the year prior to the previous calendar year, but who did not declare that zone as their declared lobster zone in the previous calendar year, and the number of trap tags issued to new zone entrants authorized under subsection 7-A; or

(2) The number of individuals who declared that zone as their declared lobster zone in the year prior to the previous calendar year, but who did not declare that zone as their declared lobster zone in the previous calendar year, and the number of new zone entrants authorized under subsection 7-A

Exceptions – Title 12 MRSA §6448 (8)(A)(B)(C)(D)(E)

A. A person who is under 18 years of age who successfully completed the requirements of the apprentice program under section 6422 or 6475 and who submitted documentation of completion of the apprentice program to the department before attaining 18 years of age may declare any zone as that person's declared lobster zone as long as the individual has met all apprentice program rules that may have been adopted in that zone.

B. A person who is issued a Class I, Class II or Class III lobster and crab fishing license on appeal pursuant to section 6310, subsection 2, paragraph A, may declare as that person's declared lobster zone the zone in which the person was authorized to fish a majority of that person's lobster traps in the most recent year in which the person held a license.

*C. A person who is issued a Class I, Class II or Class III lobster and crab fishing license pursuant to section 6421, subsection 5, paragraph D may declare as that person's declared lobster zone the zone in which the person was authorized to fish a majority of that person's lobster traps in the most recent year in which the person held a license. ***

D. A person who is issued a Class I, Class II or Class III lobster and crab fishing license and is 70 years of age or older may declare any zone as that person's declared lobster zone.

E. A person who has either successfully completed the requirements of the apprentice program under section 6422 or 6475 or held a Class I, Class II or Class III lobster and crab fishing license in the previous calendar year and who has registered to enter an established island limited-entry program as described under section 6449 may declare as that person's declared lobster zone the zone in which that island limited-entry program is located when the person becomes eligible to enter the island limited-entry program.

What steps are taken to determine the number of new entrants for each zone?

The number of new zone entrants must be determined by dividing the number of individuals (Zones A, B) or trap tags (Zones D,E,F,G) available from license holders who did not renew their commercial license by the exit ratio established for that zone.

- Calculate how many individuals did not renew in 2014 for each zone and how many trap tags were held by those individuals in the previous licensing year.
- Determine how many individuals entered each zone in the previous year, whether it was by last year's new entrant exit ratio, those over age 70 or under age 18, medical or military appeals, suspensions or exceptions.
- The number of new zone entrants must be rounded down to the nearest whole number, and the remaining trap tags carried over to the following year's allocation. (Zones D,E,F,G)
- The number of new zone entrants are rounded to the nearest whole number, either up or down. (Zones A,B)
- Records are individually researched and reviewed for accuracy.
- New zone entrants and issues include those individuals from the waiting list, those over 70 or under age 18, medical or military appeals, suspensions and exceptions.

***Title 12 M.R.S.A 6421 (5)(D)*

D. Did not possess a Class I, Class II or Class III lobster and crab fishing license in the previous calendar year because the commissioner had suspended the person's license privileges for a length of time that included the previous calendar year.

Memo

To: Lobster Zone Council Members
From: Jessica McKay, Secretary Specialist
Date: February 2nd – Posted on Internet
Re: 2015 New Zone Entrants for Limited-Entry Lobster Zones

As required by Maine's limited entry law, Title 12 M.R.S.A. §6448, the Commissioner of Marine Resources has determined the number of new zone entrants that may be authorized for each limited-entry lobster zone. Of the seven lobster zones, six zones have adopted regulations to limit the number of new zone entrants.

In accordance with 12 MRSA §6448 sub-§7-A, The number of new zone entrants authorized in a licensing year must be in accordance with the exit ratio established under subsection 2 for that zone. The commissioner may adopt rules consistent with subsection 2, paragraph B to implement this subsection.

- A. Dividing the number of trap tags that may be issued to new zone entrants by the zone trap limit under section 6431-A. (Zones D, E, F, & G use this method)
- B. Applying the exit ratio to the number of individuals who declared that zone as their declared lobster zone in the year prior to the previous calendar year, but did not declare that zone as their declared lobster zone in the previous calendar year. (Zones A & B use this method)

Exceptions to the limited-entry process, such as medical and military waivers, are excluded from the totals for the purposes of calculating the number of new zone entrants as required by the limited-entry law.

Each lobster limited-entry zone has established an exit ratio to determine how many tags or individuals must be retired (not renewed) in order for a new zone entrant to be allowed into the zone. Following are the number of licenses awarded in 2015 for each limited-entry zone based on the exit ratio for that zone:

Zone A: 12 licenses awarded; based on a 1:3 Exit Ratio (1 new license for every 3 licenses retired)
Zone B: 2 licenses awarded; based on a 1:5 Exit Ratio (1 new license for every 5 licenses retired)
Zone D: 3 licenses awarded; based on a 1:5 Exit Ratio (1 new license for every 4,000 tags retired)
Zone E: 1 license awarded; based on a 1:5 Exit Ratio (1 new license for every 3,000 tags retired)
Zone F: 2 licenses awarded; based on a 1:5 Exit Ratio (1 new license for every 4,000 tags retired)
Zone G: 1 license awarded; based on a 1:5 Exit Ratio (1 new license for every 4,000 tags retired)

Certified letters have been sent to those individuals on the waiting list that are now authorized to purchase a 2015 license. These individuals have 30 days to buy their 2015 Lobster and Crab Harvesting License for that limited-entry zone or the next person on the waiting list is offered the slot.

Questions about the lobster licensing process should be addressed to Jessica McKay, Department of Marine Resources, (207) 624-6553.
